TEAMSTERS WIN INCREASED PAY.

STRIKE OF TRANSFER COMPANY EMPLOYEES IN ST. LOUIS IS SETTLED.
(BY A. P. NIGHT WIRE.)
ST. LOUIS, Aug. 15.—The strike of 1500 transfer company teamsters and chauffeurs which began here last Friday, was settled tonight. The men were granted a general wage increase of fifty cents a week, a reduction of about one hour in the working day and better working conditions. The wages increased according to the team owners, will aggregate \$80,000 a year, whereas the original demands of the men called for an increase totalling \$100,000. The strikers will return to work tomorrow. The settlement was brought about by Father Timothy Dempsey, a Catholic priest, who induced leaders of both sides to agree to a joint meeting. All last night, all day today and far into the night, the two sides wrangled but failed to reach an agreement until after a personal appeal by Father Dempsey.

DROPS BOMBS ON GALATA.

HEAVY CASUALTIES REPORTED IN THE SUBURB OF CONSTANTINOPLE.
(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 15.—A dispatch to the Daily News from Athens says: "French and British aeroplanes have flown over Constantinople. They threw bombs on Galata, causing heavy casualties." Galata, on the north side of the Golden Horn, near Serpail Point, is Constantinople's largest suburb and the custom house of the capital. The inhabitants before the war were mainly European Christians.

THE WEATHER BACK EAST.

It's Rather Hot in Spots in the Middle Section and Showery in Others.
(BY DIRECT WIRE—RECEIVED DISPATCH.)
CHICAGO BUREAU OF THE TIMES, Aug. 15.—Chicago's temperature today was 84, a rise of twenty degrees from last night, and sent the population flocking to the bathing beaches and other cool spots. Other lake cities were hot and the Southwest and Northwest report higher temperatures. Eastern States show little change from yesterday, but Western Canada is above 90, four degrees hotter than Los Angeles. Michigan, South Bend and parts of Nebraska and Wisconsin had heavy rains. Other temperatures:

ARE YOU WASTING MONEY?

Buying Expensive Clothes

Has somebody put the idea into your head that you have to spend \$35, \$40 or \$50 in order to get a suit of clothes that will satisfy you? Have you ever stopped to consider that one tailor operating at less expense than another can make you a better suit of clothes for less money?

That is my story in a nutshell. I can and am making better clothes for less money because I have a low rental upstairs shop, and put more money into the clothes, and less into the fixtures.

My sole aim in every suit I make is to SATISFY my customer and I have HUNDREDS OF CUSTOMERS.

A Word About My Gift Offer

Many of my competitors say IT CAN'T BE DONE. They may tell you that, but they have a selfish motive. I CAN—I DO and I AM giving these Gifts with every suit. I have a 10 YEARS' Established Reputation as THE SQUARE TAILOR, standing Back of every claim I make, and I GUARANTEE SATISFACTION to every customer. I am very particular about the details in every suit I make. IT MUST BE RIGHT before I will allow it to leave my shop. I make this offer to get acquainted with new customers. Clip this announcement and bring it with you. Get real value in any suit you may buy for \$14 or more.

THE HIGH POWER SHELLS.

Those of Twelve Inch Contains Thirty Pounds of Explosive and Weigh Nearly Nine Hundred Pounds.
(Philadelphia Public Ledger.) High power projectiles are constructed with cavities in their center which contain the explosive charge. The explosive varies with the size of the projectile. A 12-inch shell, weighing 870 pounds, carries about thirty pounds of explosive. The cavity of such a projectile is about seven inches in diameter at the base and gradually tapers in size toward the point. After the charge is placed in the projectile, the plug is screwed into the base, thus sealing up the explosive and a fuse is inserted in the center of the plug extending into the explosive within the cavity. The fuse, without which the explosive is harmless, depends upon the high rotary motion of the shell to become active. This rotary motion is imparted by the rifling of the gun. In the smooth surface of the tube are cut the rifling grooves of a width of about one-eighth inch. Round the shell, near its base, is a groove cut for the purpose of increasing what is known as the rotating band. This band projects above the surface of the shell and corresponds with the rifling grooves so that upon firing it is forced into the rifling, where it acts as a seal to prevent the escape of the gas formed by the exploding powder and gives the shell the required rotary motion, which keeps it on its true course with its point always in a direct line ahead.

SUBMARINES FOR LIGHT CRUISERS.

NEW TYPE SUGGESTED FOR NAVAL MONSTER.

Office on the Destroyer O'Brien has a Plan for Strengthening the Navy that will be Submitted to the New Board of Scientific Experts of the Navy League.

[Washington Correspondence Indianapolis News.] A naval monster of a startling new type, which will be able either to operate at the highest speed and match gun for gun, with light cruisers and destroyers in battle on the surface of the sea, or at a moment's notice to sink below the surface and lie in wait with the deadly torpedo should a dreadnought or battle cruiser of the enemy appear, is outlined in a paper submitted by Lieutenant-Commander Charles Courtney of the United States Navy. In a letter to the board of experts of the Navy League.

The new vessel embodies the first step toward the realization of the prediction of Sir Percy Scott, of the British navy, that within a few years all powers would be building submersible dreadnoughts armed with the heaviest guns and armed yet capable of being submerged and operated beneath the surface for the purpose of attacking from so powerful an adversary as the dreadnought. Courtney's plan, which is being prepared by the Navy Department and will probably be one of the first subjects of investigation by that body. According to Lieutenant-Commander Courtney's paper, the new vessel will combine the types of the present submarine with that of the destroyer or scout cruiser. It will be of several thousand tons displacement and will be able to keep the sea in any weather and carry sufficient fuel and supplies to make cruises of several thousand miles. She will carry a heavy battery of rapid-fire guns for use on the surface and will be driven while running above the water by high-speed turbines and steam engines heated by crude oil furnaces, and will have a speed of twenty-four knots or more. While running on the surface she will have the appearance of the ordinary type of large destroyer or scout cruiser. Under water she will be driven by electric motors and will be capable of a speed of twelve or fifteen knots.

When it is desired to submerge her, all that will be necessary will be a turn of the throttle, which will extinguish the oil fires and throw the electric motors into gear. Then her guns and smokestacks will be retracted on their hinges and lowered into recesses in the deck fitted to receive them, the hatches will be hermetically sealed, water will be admitted into her water-ballast compartments, and she will be ready to dive in response to the impulse of her vertical planes. The principal radical change in naval construction, as in vogue in the United States Navy, involved in the plans for the new boat will be the

BRITISH MINERS ARE DISSATISFIED.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 16, 1:51 a.m.—Miners meeting at various places in the South Wales coal fields yesterday adopted resolutions expressing dissatisfaction at the delay in completing a new wage agreement and recommending that unless a settlement is reached soon another conference be held to consider the renewal of the strike.

Prosperity Pointers—No. 12 Buildings

In the business section of Los Angeles close upon 100 first-class office buildings stand as monuments to our prosperity.

These great piles represent the accumulated savings of the owners who foresaw the wonderful possibilities of downtown business property in Los Angeles.

The habit of saving is the most valuable one, men and women, boys and girls can acquire.

With money in the bank opportunities for making more money need not go begging.

A single dollar will open a Term Savings Account at this bank. This form of deposit pays 4% interest compounded semi-annually. Ask for particulars at the New Accounts window.

The Owl Drug Co

Awarded the Gold Medal

by The Panama-Pacific International Exposition

THE highest jury of the world's greatest Exposition: the Superior Jury of Awards of the Panama-Pacific International Exposition has awarded The Owl Drug Company

The Highest Competitive Prize for Pure Drugs

FIRST in the quality and purity of its drugs—and first in the improvements made by its laboratory in the refining and combining of crude drugs into pharmaceutical products.

The Jury, in awarding the Gold Medal, also considered the various other phases of The Owl Drug Company's business

—its ideals and business policies
—the general excellence of its stores
—its accuracy in filling prescriptions
—the superior service rendered the public by its 1000 employees.

This award is a signal recognition by a great International Jury, of those high standards of principle and practice upon which this business has been built and operated, from its very beginning, twenty-three years ago.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Los Angeles Team Wins.

For the third consecutive time the Los Angeles team won first prize in competitive drill with the Y.M.I. battalions of other cities, the last victory coming yesterday in San Francisco. Following the drill, the victorious team was tendered a banquet at the Hotel Inland. President Moore was toastmaster and responses were made by Mayor Ralph and Archbishop Hanna.

Desert Death Mystery.

The address "523 Stanford avenue, L. A.," scrawled on a card, and the name "Chambers" on a Menger Laundry slip are the only clues to the identity of a man buried Saturday far out on the Mojave Desert by Under-Sheriff McLean of San Bernardino. The body had been mangled beneath a Salt Lake train near Lyons, close to the Nevada line. The Salt Lake train crew thought foul play had figured in the man's death, but it was the case the indications were blotted out within the wheels of the train mangled the body.

PERSONALS

T. S. Searle, a wealthy merchant of El Paso, is spending several days at the Hayward. W. R. Keit, mining man from Tucson, is also a guest there.

O. Navarro and Senor Positana, Argentine commissioners to the Panama-Pacific Exposition, are staying at the Alexandria.

S. A. Bemis, wealthy paper box and bag manufacturer of St. Louis, who is on a brief vacation, is staying at the Lankershim. John Neff, Jr., son of the Chicago capitalist of the same name, is also a guest at the hotel.

R. W. Smith, who has just returned from Kimberley, South Africa, is touring California and visiting the expositions. He is staying at the Hayward for a few days.

Among the guests at the Alexandria are Mr. and Mrs. John B. Slaughter, Mr. Slaughter owns one of the largest ranches in Texas and is also a cattle man.

W. E. Mashburn, who has been employed for several years near Nacozari, Mex., as an engineer with one of the large copper mining companies, arrived yesterday and is staying at the Lankershim. Mr. Mashburn stated that bandit activities in Sonora had caused the mines to shut down, through lack of shipping facilities, but that no serious outrages had occurred recently in the vicinity of Nacozari.

W. B. Hicks of Columbia, Tenn., is staying at the Alexandria. Mr. Hicks is a prosperous coal mine operator. Other guests at the hotel are John T. Burton, a Chicago attorney of note, and Emmerson Carey, a wealthy banker and broker of Hutchinson, Kan.

Among the guests at the Hollenbeck is Albert Lendzner, wealthy rancher of Denning, Calif., who is looking after some local interests and enjoying a change of climate. Frank W. Brown, prosperous cattle rancher of El Paso, and L. E. Burke, mining man from Goldfield, are also staying at the hotel.

LOSERS TIP OF THUMB.

Boarder's Revolver Proves Dangerous in Hands of Housekeeper Who was Curious.

Mrs. Nettie Seeger says she should have known better, and blames her curiosity for her trouble. She was shot through the thumb yesterday by a revolver she was examining. She is the housekeeper at No. 1055 South Figueroa street, 55 years old, and uninformed in the ways of guns. One of the lodgers in the house sleeps with a weapon of great proportions under his pillow.

While renewing the bed yesterday, Mrs. Seeger came across the gun, and put down to see how the thing worked. She was thumbing at it when the explosion came, and the tip of her right thumb was gone. She was taken to the Receiving Hospital to have the wound dressed.

Today she may put a hatpin under the pillow of the man with the weapon as the most efficient and harmless article of offense and defense that it is convenient and safe to have around.

CAR TURNS TURTLE.

NEEDLES, Aug. 15.—The blowing up of a tire of an automobile driven by J. A. Warren of this city on a grade east of Needles caused the machine to turn turtle and seven people had a narrow escape from serious injury for the car started to burn an instant after overturning. With Warren were Mr. and Mrs. John Wilkinson and their two children and Mr. and Mrs. Washburn.

and the Worst Is Yet to Come

CLASSES OPIUM WITH TOBACCO.

DECLARES SMOKERS OF BOTH
SUFFER IN SAME WAY.

Leader of Campaign Against the Weed Says it is Poisonous and Much Degeneracy is Directly Due to it—Blames it for Various Drug Habits.

Opium smokers and tobacco smokers were placed in the same classification yesterday by Dr. Charles O. Pease, New York physician and president of the Nonsmokers' Protective League of America, in addressing a meeting at the First Methodist Church.

Dr. Pease is probably the most active enemy of the weed in the country and had been secured by church workers and W.C.T.U. members to speak against tobacco in a nationwide campaign.

Yesterday he spoke of "The Poisonous Character of Tobacco Smoke; the Rights of Nonsmokers, and the Harm of Inhaling Polluted Atmosphere in Relation to Racial Degeneracy."

He said official reports to the United States government show 75 per cent of the children are defective. An official report of New York State shows that only seven out of each 100 children are not abnormal in some particular.

In accounting for the abnormal conditions Dr. Pease said in part: "There are many factors that unite to cause the condition of abnormality, but the greatest factor is tobacco. The use of the cigarette is the most degenerating vice in the country today. Tobacco is one of the most poisonous of plants and it is the most prevalent poison in use. The system becomes accustomed to the absorption of the poison and an abnormal condition soon results."

"The moderate smoker of opium and the moderate smoker of tobacco suffer alike. The result from the one is no worse than from the other. The satisfaction received in each case is but the gratification of a physical habit, a sensual crime."

Dr. Pease made an analysis of the tobacco weed and the gas generated by its combustion. He said that some of the most deadly poisons are present. He told of the effects produced upon rabbits and other small animals by the inhalation of smoke and said death frequently resulted from the tobacco poisoning.

"The blame for most of the drug habits should be laid at the door of tobacco," Dr. Pease said. "Tobacco is a drug. If we were rid of the tobacco habit we would soon be rid of 90 per cent of the liquor and drug habits, that now produce such abnormal conditions and eventually in the death of the user. Tobacco hardens and distends the arteries and affects the lungs, heart, kidneys and other vital organs. Mental activity is reduced by it."

**MEXICAN SHOOT
AND IS BEATEN.**

ITALIANS REFUSE TO PERMIT HIM TO DANCE AND HE RESISTS IT.

(LOCAL CORRESPONDENCE.)

LOS NIETOS, Aug. 15.—A party of Italians almost lynched a Mexican who horned his way into a dance at the home of John Noel, here this afternoon. The Mexican entered the place without invitation and asked an Italian woman to dance with him. She indignantly refused and the Mexican immediately began shooting.

One of his bullets found lodgment in the thigh of Anton Cerotte, inflicting a wound which necessitated his removal to the County Hospital at Los Angeles. The Italians then jumped upon the Mexican and beat him so severely that he cannot be identified tonight and he refuses to tell his name. He was taken to the Whittier City Jail. Five cashes had to be sewn up on his head.

YUMA (Ariz.) Aug. 15.—(Exclusive Despatch from the U. S. Reclamation Service.) Gauge behind Colorado River, 15.10 feet.

**UNIDENTIFIED
MAN KILLED.**
FALLS BENEATH FREIGHT TRAIN
AT BURBANK AND IS
MUTILATED.

(LOCAL CORRESPONDENCE.)
BURBANK, Aug. 15.—An unidentified man about 40 years old, fell beneath the wheels of a rapidly moving Southern Pacific freight train and was killed today, the accident occurring about a mile east of the Burbank station.

The man had attracted considerable attention during a recent stay in Burbank by his peculiar actions. City Marshal Reinwater had notified him the day before to leave town.

It is said the man attempted to board the train but misjudged the speed and fell beneath the trucks. His head was severed from the body, which was mutilated. The coroner was notified and the body taken to the county morgue.

No one could be found who knew anything about the man, except that he had stated he was from Los Angeles and was a cook. No papers or other means by which identification could be made were found on the body.

AUTO BREAKS LEG.
(LOCAL CORRESPONDENCE.)
SANTA MONICA, Aug. 15.—George L. Waring received a broken leg at Ocean and Utah avenues when struck by a car driven by William Keenan. Mrs. Waring, formerly was a tennis champion and they lived at one time in Riverside.

Ever-advancing South

XXIVTH YEAR.

**GALLANT WOOD
SLAYING**

**Girl Tells How White
as "Diamond Wid"**

**With His Cane as Evidence
Hainous Crime, not as Skull
Snout Laden with Gems and
Return Shortly.**

AST July 9 Calvin Kelsey Whittington left a bungalow in which his middle-aged paramour and mistress, Mrs. Frances Harrison, had just died under circumstances such that he is hunted as her murderer.

July 10, Calvin Kelsey Whittington, called on his young sweetheart, Mrs. Grace Colligan, at No. 2417 Malabar street, dined with her, wooed, asked her to wed him and while leaving, after spending hours with her, promised to return within three months from an eastern visit and marry her.

With a day-old murder on his conscience, if the police theory is correct, he sat at the piano in Miss Colligan's home, playing love songs and singing old lullabies that he said his mother had taught him. In his pockets were the gems, it is believed, that were his soul's ransom, and amid them he tucked a flower, a sweetheart had kissed.

Nothing more sensational has happened in the sinister annals of the city since the last day here of "Dick" Whittington, the love-crook, who instead of making a fugitive fleeing in a one-way delivery wagon, was a well-known, gallant paying the favors of romance to the latest favorite of his city.

The last day's history of the man whom the police of the nation are searching in order to bring him in on a charge of killing the middle-aged Mrs. Harrison, was exposed to police yesterday in full detail by Mrs. Colligan, after she had been induced by friends to yield her information to help the officers in the chase.

Assistant Chief Home at once delivered the information to the detectives working on the case.

A CAFE MEETING.

Four months ago before the death of Mrs. Harrison, Miss Colligan, who was an attractive young woman, 24 years old, talented in music and a photographer by vocation, met Dick Whittington, as he was known to all his friends, in a downtown cafe. They were introduced at a dinner party at

Startling.

MALLANT WOOPER AFTER SLAYING IN BUNGALOW.

Girl Tells How Whittington Made Love as "Diamond Widow" Lay Dead.

With His Cane as Evidence, Reveals Man Sought for Heinous Crime, not as Skulking Fugitive, but as Gay Sailor Laden with Gems and Earnest in a Promise to Return Shortly.

July 9 Calvin Kelsey Whittington, a middle-aged man, was slain in a bungalow in which he was living with his young sweetheart, Miss Frances Harrison, had been slain under circumstances such as to lead to the belief that he was the murderer.

July 14, Calvin Kelsey Whittington, a middle-aged man, was slain in a bungalow in which he was living with his young sweetheart, Miss Frances Harrison, had been slain under circumstances such as to lead to the belief that he was the murderer.

New Figure in Murder Mystery.

Miss Grace Colligan.

A friend of Mrs. Frances Harrison, who was murdered early in July by Calvin Kelsey (Dick) Whittington, Miss Colligan told the police that Whittington called upon her the day following the discovery of the murder, presented her with a cane and told her he would come back to claim her as his bride.

Shocking.

BOY DRAGGED TO DEATH BY BURRO.

FATHER FINDS BODY WITH ONE FOOT LOOSED IN REIN.

Frightened Animal Races Over Rocks and Brush While Life Beaten from Little Son of Wealthy Merchant—Small Playfellow Sees Tragedy at Mountain Camp.

His right foot entangled in the bridle rein of a frightened burro, little William Edwin Bezzo, 7-year-old son of W. H. Bezzo, No. 2922 Brighton avenue, was dragged through brush and rocks over rocks to his death, day before yesterday at Thousand Pines camp.

The body was discovered in an orchard by the frantic father, who had been informed of the accident by the stableman, who had rented the burro.

Mr. and Mrs. Bezzo, their daughter, Marion, and the little boy had been staying several weeks at the camp. They had planned to return today and the boy had been granted permission to take a last ride on the burro.

With a little friend, a son of one of the neighboring campers, he rode an animal, that in carrying its double load started off down the trail.

At a turn the burro became frightened and whirled rapidly, running to the stable and throwing the boys off. Little William's foot became entangled in the rein, which in some manner looped the ankle in a hard knot, and the animal, frightened still more by the form of the boy dragging himself along, ran the faster for the stable, soon out-distancing the uninjured lad, who had started in pursuit.

The animal, freed from the trail and ran through the brush, up hill and down gully, trying to rid himself of the burden, but in vain.

A searching party composed of stablemen, notified by the other boy, started out at once but failed to find the missing animal. Mr. Bezzo was also notified and joined in the search and found the exhausted burro and the lifeless boy.

Dr. J. E. Cowles of this city, who was at the camp, was called but the boy was past all aid. The Sheriff's office at San Bernardino was notified, and the formality of an inquest was dispensed with.

The body was brought to Los Angeles yesterday. Interment will be at 2 p.m. today in the Roseale cemetery. Mr. Bezzo is a wealthy suit and cloak dealer of No. 701 South Broadway.

HELD FOR GRAVE OFFENSE.

Fred Jenney, an engraver, No. 1322 South Flower street, was arrested and charged with "suspicion of a felony," early last night, upon the complaint of Dorothy Kennedy, 9 years of age. According to the police, Jenney seated himself beside the girl in a motion picture show early last night and annoyed her. Jenney's actions were noticed by several persons in the theater and a policeman was called. At the police station the prisoner declared that he was guilty of nothing, but was locked up for investigation. He is 59 years of age.

PEDESTRIAN ROBBED.

Armed with revolvers, two men early last night held up and robbed Colton Sostak of No. 118 Leroy street, as he was walking near Naud Junction. The bandits secured \$5.25 in cash and feet. Mr. Sostak could give the police no description of the men.

Toll of the Road.

MANY MOTORISTS JOIN SICK LIST.

BROKEN BONES GALORE TAKEN TO THE HOSPITAL.

Several Varieties of Vehicles in Varied Mishaps on Streets and Highways Make Steady Grist of Work for Surgeons—Collisions Cause Most of the Casualties.

The dirge of the Sunday motorist sounded in the Receiving Hospital yesterday when the usual list of victims began to fill. Skull wounds and numerous broken bones were a share of the injuries treated at the hospital.

L. D. Harding, No. 931 West Thirty-fourth street, was returning from Venice early in the morning when his machine rammed a milk wagon at Eighteenth and Main streets.

Mr. Harding was thrown against the steering wheel with such force that he was knocked unconscious, and when he was taken to the Receiving Hospital, four of his ribs were found to be fractured.

The milk wagon was driven by J. M. McKendie, No. 1128 Towns avenue. Mr. Harding says the milk wagon was unprotected by lights and that the driver turned the corner without a signal. Both motor car and milk wagon were wrecked.

Early in the morning W. H. Speer, No. 2228 Lafranco street, braved the streets at the helm of his new motor car, which he was learning to pilot without assistance. He thought the streets safe at the hour for the maneuvers incidental to novitiates at the wheel.

While scouting along the street he was struck by a car.

On Way to Convention.

FINANCIERS OF FUTURE LEARN SOUTH'S CHARMS.

AN INTERESTING delegation of 223 budding financiers was in Los Angeles yesterday—members of the American Institute of Banking on the way to San Francisco to attend the organization's thirteenth annual convention.

In this company of ambitious junior bank officers, such as cashiers and assistant cashiers, are some of the country's future great bankers. The institute is the education section of the American Bankers' Association.

The visitors are part of a company of young men who are making a careful study of the details of banking and also of the great financial problems of America and the world.

The delegates arrived in Pasadena in a special train over the Santa Fe at 1 o'clock yesterday afternoon. After luncheon at the Hotel Maryland the visitors were taken for a motor car ride and were entertained at dinner in the evening at the Alexandria.

The party left last night for San Diego, from which place it will go direct to the northern exposition city. The convention will open Wednesday and last three days.

The officers of the institute, who were here yesterday, are: President William S. Evans of Philadelphia, Education Director George E. Allen

HERE TO STUDY FLOOD PROBLEM.

United States Engineers to Remain a Week.

Visit San Gabriel and San Fernando Today.

All Interested in Protection of Harbor.

Registering at different times during the day, the seven members of the United States Rivers and Harbors Board of Engineers who will make an official inspection of Los Angeles Harbor and also review and report to Congress on the recommendations of Maj. Robert R. Raymond, U.S.A., regarding the diversion of flood waters, arrived at Hotel Clark yesterday.

Maj. Raymond, Chief of the United States Engineers Bureau in this city, met the guests last night, and arranged final details for the tour of inspection that will commence at 9 o'clock this morning, and will continue the greater part of this week.

Col. William Murray Black, president of the board, was the first to arrive yesterday. He was joined at the hotel by H. W. Webster, a civilian engineer who is secretary of the board. Col. Black was accompanied by his long journey, and retired at once to his rooms to rest.

Col. Lansing H. Beach, Col. Henry C. Newcomer, oldest member of the board, and Maj. Edward N. Johnston appeared in the lobby together. Col. Newcomer and Maj. Johnston were accompanied by their wives. The other two members of the board, Col. Frederick V. Abbott, and Lieut-Col. E. E. Winslow did not arrive until late last night.

The army engineers and their secretary, Mr. Webster, will assemble in Maj. Raymond's office in the Central Building at 3 o'clock this morning. Two big touring cars will be requisitioned and the party will start for a tour through the upper San Gabriel Valley and San Fernando Valley. The party will make a thorough inspection of the topography of that section in view of a projecting plan.

SEE HARBOUR TOMORROW. Tomorrow the engineers will be taken over the south end of the county and will be given the entire afternoon for an inspection of the harbor. Perhaps more interest is attached to the result of this inspection than any other point of the present trip. One thing which will draw perhaps the greatest attention is the advisability of the proposal to build a direct channel between Los Angeles Harbor and Long Beach Harbor.

As army officers, the board will undoubtedly appreciate the great tactical advantage to be gained by having that amount of "back door" to Los Angeles Harbor, that could be utilized in time of war by a coast guard fleet of submarines, to strike the enemy from two points.

Other important questions to be decided by the board of engineers are the projects to widen the entrance channel of the harbor to a minimum of 1000 feet; to deepen the entrance channel and turning basin to thirty feet; and to widen the east basin channel and dredge the area south of Reservation Point.

The visiting engineers sought shy questions concerning their important mission. "Most of us have been here before," Col. Newcomer said last night. "We like the country and realize the importance of our mission here. I believe every member of our board has visited your harbor, and our army say we are very much impressed with it."

"As yet I do not know what the plans are for our stay here. Maj. Raymond has that in charge. But tomorrow morning we will get together at his office and start out on our tour of inspection. It will also be a pleasure trip for us as we are glad to be in Southern California."

Col. Beach and Maj. Johnston seemed to be in charge. But not one of them would talk about the possible outcome of their report. "As yet we don't know what it will be ourselves," they laughed.

It would appear from scraps of conversation gleaned about the lobby of the hotel that the particular interest of the engineers in the flood plans is their use as a means of protecting the harbor. The plan advanced by county officials is to have

Col. W. M. Black.

President of the United States Rivers and Harbors Board of Engineers, here to inspect the harbor and consider flood control plans.

the government stand \$1,800,000 expense for a dam at Dominguez.

Wednesday morning the board will meet in the Coroner Room of the Chamber of Commerce to hear the protest presented by the owners of the Palos Verdes ranches, led by Frank A. Vandellip, concerning the diversion of river waters from the harbor to Alhambra Bay. The ranch owners claim that this procedure will rob the underground stores of the property.

The remaining days of the week will be spent by the engineers in checking up their observations and in completing details of their inspection. They will submit their full report to Congress upon their return to Washington next week.

This important inspection by the Board of Engineers is the outcome of the improvements made by the Congressional Rivers and Harbors Committee several months ago. Following their tour of the harbor and vicinity, the Harbor Commission submitted the formal request to the committee that provision be made for a survey of the improvements made by the board.

NEARLY HALF ACRE OF POSIES.

Beauty, Fragrance in 'Big
Broadway Show.

New Introductions in Roses a
Special Feature.

Next Year's Models of Cars
and Accessories.

The management of the Broadway automobile and flower show has decided to devote the entire third floor to floral exhibits, the chief features of which will be competitive cut roses, chrysanthemum and dahlias shows. Cups will be offered in various classes and the competition will be open to all amateur growers of Southern California. Commercial growers will have elaborate and beautiful exhibits, but these will not come into the same competition as those to which amateurs are eligible.

Work on the entire decorative scheme, which will be elaborate and unique will not be confined to the third floor, but will adorn the floors devoted to automobiles and accessories, the stairways and landings. Complete details concerning the flower shows and conditions governing the entries will be announced for two or three weeks, but growers of roses and other flowers have already begun to prepare their gardens and their plants so they can control the blooms to be at their best during the time of the show which will be October 22-29, inclusive. Inquiries concerning floral entries should be sent to J. S. Conwell, general manager of the Broadway Automobile and Flower Show or to C. F. Hayden, at the temporary offices of the show, No. 221 Exchange Building. As soon as the Boston Store has moved to its magnificent new store on Seventh street offices will be opened on the first floor of the building at Third and Broadway, where the show will be held.

THE QUEEN OF FLOWERS.

Roses promise to be exceptionally beautiful this fall in Southern California and the show will be of special interest to lovers of the queen of flowers because of the many new introductions of varieties. Hundreds of up-to-date amateur growers have secured these new varieties for their gardens and are enthusiastic over the few blooms they were able to grow this spring. By the latter part of October the plants will be well enough established to produce blooms of normal size, color and form.

At the big show there will be roses on exhibition which are as yet little known in this country as well as a few varieties which are not yet even on the market. The beautiful colors and shadings of some of the new coppers, salmon pinks and coral roses present a beautiful as well as novel addition to the list of roses of exceptional merit. Special effort is being made to have as large a display of the new varieties as possible and the management has already been assured by several exhibitors that, barring accidents to gardens or plants, there will be a display that will not only delight the senses with its beauty and fragrance, but will offer new and interesting suggestions in rose culture.

"MUMS" AND DAHLIAS.
Growers of chrysanthemums in Los Angeles, Pasadena and other cities will be able to present a wealth of beauty and perfection seldom if ever seen at a public exhibition before. Conditions in Southern California are ideal for these beautiful flowers and a great many horticulturists have gone into the production of exhibition blooms extensively. There could be no better way to learn of the wonderful variety and perfection of chrysanthemums as attained in the Southland than by visiting this big show.

Recent achievements in dahlia production as exemplified at the show will be a revelation to the majority of people for comparatively few realize that there are hundreds of varieties, many of them new, which are a distinct advance and superior in many ways to the older and better-known forms.

Automobile dealers, recognizing that enormous crowds will attend the show from all portions of Southern California, are preparing to make their exhibits the finest in the history of the West. Practically every leading car will be shown. There will be the 1915 models, including the greatest number of multiple-cylinder cars, sixes, eights and twelves ever shown up to that time in any exhibition.

The great amount of space to be devoted to automobile accessories is certain to be one of the most interesting features of the show, both to the man who owns a car and the man who expects to own one. Every new device for efficiency, comfort or beauty known to the trade will be attractively displayed.

Manager Conwell intends to have some unique musical features in addition to the big orchestra that will be stationed in the first floor balcony most of the time. Wandering bands of troubadours and other features of the kind will be provided and the entire great building will be made attractive and interesting.

**HERO OF YORBA
WRECK SUCUMB.**

**ENGINEER'S DEATH IS FOURTH
FATALITY CAUSED BY
THE SMASH-UP.**

A fourth fatality resulted from the spectacular railroad wreck at Yorba, the 4th, when Engineer Joe Benton, 24 years old, injured in the crash, died yesterday at Fullerton Hospital. He had been practically unconscious all the time but it is believed he recognized his wife a few days after the accident. All members of his family were present when the end came. Mrs. Benton left for her home in San Bernardino late last night and the body will probably be taken to that city some time today.

Learn South's Charm.

(Continued from First Page.)

not gone far up the ladder of fame in banking. They are students and bankers in the making. If there is anything in study and sincere preparation, then our organizations will turn out some of the financial leaders of the future.

During their stay the delegates were the guests of the Pasadena and Los Angeles chapters of the institute. The local Reception Committee was composed of the following: R. B. Hardacre, assistant cashier of the Security Trust and Savings Bank, chairman; G. S. Pickrell, assistant cashier of the National Bank of California; J. H. Rambo, cashier Merchants' National Bank; George F. Green of the First National Bank; and Fred C. Bold of the Merchants' National Bank. Following are the officers of the Los Angeles chapter of the institute: President, W. H. Thomson of the National Bank of California; vice-president, W. D. Otis of the Security Trust and Savings Bank; secretary, W. N. Bucklin of the Los Angeles Trust and Savings Bank; and treasurer, Fred C. Bold of the Farmers and Merchants' National Bank.

The Pasadena Reception Committee was composed of R. C. Davis (chairman), Theodore Smith, Lawrence Clark, Paul Barnes, Harlow Christie, Harry Machin and Joseph Goya.

ENJOYING REWARD OF YEAR'S WORK.

**MEN WHO WROTE MILLIONS OF
INSURANCE HERE TO AT-
TEND CONVENTION.**

En route to San Francisco, where they will hold a convention, 125 members of the Hundred Thousand Dollar Club of the Missouri State Life Insurance Company are visiting local points of interest. Yesterday trips to the beach and mountains attracted the majority of the visitors. The club is composed of agents of the insurance company, who have secured life insurance policies amounting to over \$100,000 for the year.

Leaving St. Louis last week, the itinerary has included visits to the Grand Canyon, National Park and the San Diego Exposition to date. Today the club members will go to Santa Catalina for a fishing and boating excursion, returning in time to attend a banquet at the Alexandria tonight.

Following the banquet the tourists will embark for Santa Cruz and San Francisco. A three-day convention will be held at the latter city, and the men who wrote insurance policies aggregating more than \$14,000,000 in a single year will discuss business and prospects for next season.

James J. Parks, field secretary of the Missouri State Life Insurance Company, said last night. "The past year has been a good one. Interest rates were comparatively high, due to a scarcity of money, and notwithstanding that insurance companies are compelled by law to limit their investments to bonds and first mortgages at an average of 6.55 per cent. interest was received."

"The financial condition of the country is excellent. The money market is in a position to loan money to Europe as a whole. This means that instead of America working to pay interest on European capital, the process will be reversed and Europe will labor for us. Money is rapidly becoming more plentiful as the payments are made for our exports. The greater percentage of the money so received goes into circulation through the purchase of securities."

I look to see an era of great financial and economic prosperity in this country."

PAYS AND ALSO BITES.

**Jitney Fare Holds Dime in Its
Teeth—Driver Gets the Coin and a
Sore Finger.**

It was no joke for Dewey Wagner, jitney driver, 18 years old, to collect fare from a passenger early yesterday morning. He lives at No. 2239 West Twenty-ninth place, and was driving his cab at Fifth and Hill street when the fare, apparently under the influence of late Saturday night excitement, boarded the car and ordered young Wagner to drive on.

Being thrifty and aware of the peculiarities of late fares with strong teeth, the driver demanded his jitney at the fare. He demurred. He wished to make a little ceremony. Finally Dewey Wagner said: "Come across or get out."

The fare put a dime in his mouth and told young Mr. Wagner to collect it from that vice.

Dewey thought he would put an end to the trouble by jerking the coin and finishing the bickering. Instead, the fare had powerful jaws. His teeth set firmly, solidly over the coin. Then Dewey did with the fare as he had done with animals that do not wish to open their mouths. He slid one finger along the inner jaw of the man and gave a firm and businesslike pressure.

ARSON SUSPECT ARRESTED.

**Police Believe Man in Custody One
of Several Having Knowledge of
Dwelling-House Blaze.**

Efforts to eradicate the alleged arson ring from the lower East Side were continued yesterday with the arrest of Laurence Cuiilo, a young Italian shoemaker, suspected of having guilty knowledge of a mysterious fire that destroyed a dwelling-house in the early hours of the morning.

Others are involved in the alleged crime, and Detectives Bean and Burgess, who have won personal commendation from Chief Sweeney for their efficiency in stamping out the practice of arson, expect to make further arrests today.

Cuiilo is 19 years old. He was caught while coming to Los Angeles on a street car. A companion, who was seated further down the car with a woman friend, witnessed the arrest, and it is feared he may notify other members of the alleged gang.

FELLED BY BRICK.

A free-for-all fight among colored men at Ninth and Redwood streets early last night resulted in Laurence Wilson, a negro, being hauled to the Receiving Hospital in the police ambulance.

According to Dr. Hiller, who treated the man, he must have been struck by a flying brick.

That longing for the rugged health of Youth

Alas, the dreams of happy boyhood days profit naught—we are "made to tread the mills of toil." And the nearest we can come to bringing back the sunny days of youth is to make timely amends for the heavy overdraws made by work and worry.

And this you can do with Sanatogen. Sanatogen is a food-tonic combining purest albumen and organic phosphorus in a form so easily assimilated that it is ideal for feeding the blood and tissues with the essentials of body strength and endurance—reviving the vitality—bettering the digestion—imparting a fresh fund of energy and health to a "slowing-down" system.

All this is not theory but established experience. Hundreds of famous men and women have written letters fully as enthusiastic as those of John Burroughs and Colonel Watterston—reproduced here—telling us how Sanatogen has helped them. Over 21,000 physicians, who have seen the work of Sanatogen in daily practice, have written us sincere acknowledgments of the tonic and upbuilding value of Sanatogen.

Sanatogen will earn words of praise from you—if you give it the opportunity to help you.

Col. Henry Watterston, the famous soldier, writes: "I do not think I could have recovered my vitality, as I have done, without this Sanatogen operating equally upon the digestive organs and nerve centers."

John Burroughs, the distinguished naturalist and author, writes: "I am sure I have been benefited by Sanatogen. My story is fifty per cent. better than it was one year ago, and my mind and strength are much improved."

Sanatogen is sold by good druggists everywhere, in three sizes from \$1.00 up.

Grand Prize, International Congress of Medicine, London, 1913

SANATOGEN

ENDORSED BY OVER 21,000 PHYSICIANS

Send for Elbert Hubbard's new book—"Health in the Making." Written in his attractive manner and filled with his shrewd philosophy, together with capital advice on Sanatogen, health and contentment. burned yesterday afternoon on the Venice road, one mile from Culver City. Several persons were forced to leap from the machines but no one was injured. According to the Sheriff's office, little could be learned of the accident. A car registered to A. J. Bluntach of Artesia ran into the rear of a larger machine and punctured the gasoline tank. The escaping fluid fired both machines.

CRUCIAL HOUR IN CHINA.

Now is the Time for Active Mission Work There, Declares Seventh-Day Adventist Speaker.

Now is the time for active missionary work in China and the Far East, and if the millions of inhabitants in those countries are to be reached with the gospel, the work must be done very rapidly, according to Pastor G. A. Fulton of Wahroonga, New South Wales, president of the Australasian Union Conference of the Seventh-day Adventists who spoke yesterday morning at the camp-ground of the Adventists at Forty-first place and Moneta avenue.

He said a union of Japan, China, India, Korea and other eastern nations is looked forward to with apprehension by statesmen, and that if this were brought about for offensive purposes, terrible times would result.

Pastor G. E. Andrews spoke last night on "What Time Is It, or the Breaking of the Day." He referred to recent phenomena of nature and to scriptures he interpreted as referring to these, and declared the present troubled times "the darkest hour which precedes the dawning of the eternal day." Twenty-two were baptized at the Carr-street Seventh-day Adventist Church yesterday morning. Pastor G. A. Snyder performing the immersion ceremony.

Yesterday afternoon a temperance rally was held on the grounds, the speakers being Mrs. Augusta C. Bainbridge, Mrs. Ellen D. Blair, State superintendent for the Loyal League branch of the W.C.T.U., Ernest Lloyd, Clyde Lowry, and Pastors J. N. Loughborough and G. B. Starr. At 9:30 a.m., yesterday G. W. Reaser of Glendale spoke, and at 3 p.m., Miss Petra Tunheim of Java.

Although the camp-meeting closed last night meetings will continue every night in a tent across the street from the camp. The subject for tomorrow night is "Heaven, What Will God do in Judging the Teeming Millions."

ONE FALLS; TWO HURT.

Slipping on a hardwood floor in her home, No. 1437 East Fifty-second street, early last night, little Lucy Markus, 4 years old, fell against a chair and cut a large gash in her chin. At the sight Mrs. Markus fainter and the father of the family was forced to send them both to the Receiving Hospital for treatment. The girl was not seriously hurt.

NEWELL TO PARISHIONERS.

Pastor of Eight Years Closed.

Minister Called to Detroit.

His Pre-eminence in Pastoral Message.

William Earl Gantz preached his farewell sermon yesterday morning at the Highland Park Presbyterian Church.

After a successful pastorate of eight years, to accept a call to the Westminster Presbyterian Church of Detroit.

He preached his farewell sermon yesterday.

But let us remember that the standards of life were lower then than now.

The Bible is the word of God, because it is adapted to men, because it meets the needs of the race, and because of its preservation.

To destroy it, we would need to get rid of the 144,000 copies in existence.

We would need to get rid of the books in our libraries all references to the Bible.

We would need to get rid of the pictures in the galleries of art.

We would need to get rid of the music in the churches.

We would need to get rid of the names of the saints.

We would need to get rid of the names of the apostles.

We would need to get rid of the names of the prophets.

We would need to get rid of the names of the kings.

We would need to get rid of the names of the judges.

We would need to get rid of the names of the warriors.

We would need to get rid of the names of the statesmen.

We would need to get rid of the names of the philosophers.

We would need to get rid of the names of the poets.

We would need to get rid of the names of the scientists.

Gallant Wooer.

(Continued from First Page.)

A devil-man, Dick Whittington was

He looked up at me and his eyes were

large and soft and so tender.

Then he began singing lullaby,

those soft, sweet little lullaby of the

lullaby. He said: "Mother used to sing

these to me. She had a good voice,

she was such a dear woman. I wonder

what she would think of her

naughty boy."

"And I put my hand on his head and

said: 'Oh, Dick, you're not a naughty

boy. You're one of the best boys in

the world.'"

"He laughed down in his throat and

blissed me. I was so happy.

"It was to be our last meeting for

some months. He said he was going

to his family in Baltimore, to be gone

at least three months. He said: 'I'm

not so poor. You will have a big one

like this mighty soon, sweetheart! and

he put his hand in his pocket and

drew out several diamonds. And I

had thought so many times since he

had perhaps just ripped them off that

poor body lying alone in that death

house.

"I asked him what he was going

for. He said he had some business that

needed attention. He said he was going

on the Southern Pacific train.

"It was while he was singing to me

that he suddenly turned and said:

'Grace, do you love me enough to

marry me?' I couldn't answer him.

I didn't tell him, but I know what I

thought. I thought: 'Yes, a thousand

million times!'

LEAVES HIS CANE.

"When it was time for him to go,

he said goodby. He had a walking

stick with him. 'You keep this,' he

said, 'so if anything should happen to

Dick Whittington you'll have some-

thing to remember him by.' Then he

handed me this stick.

"If I had known, oh God, if I had

known, I was crying, crying because

I loved him, and hated to see him go,

standing there with that stick in my

hands. And I ought to have clutched

him over the head with it and shouted

to my neighbors for help. I ought to

have knocked him down, but instead

of that I asked him to kiss the stick.

And he did, there on the handle. And

then I kissed it in the same place.

"For love," he said. "For love, I

loved him, and that's all I know of

the man who is sought by the police."

DR. LOCKE.

FIRST METHODIST CHURCH.

THERE IS NO DOUBT THAT DREAMS

SOMETIMES CONCERN THE

ETERNAL MATTERS.

Dr. Charles Edward Locke at the

First Methodist Church last evening

after a sermon on "What Is It to Be

a Christian?" opened his monthly

question box. In answer to the

question "Is Anything in Dreams?"

he said:

"A dream is a succession of images

of fantastic ideas present in the

mind during sleep, of the

imaginative faculty having no

external reality to correspond to

them. Each of us knows as much

about dreams as any one else. There

are various theories all more or less

unsatisfactory. It is thought that

when the body is at rest and the sub-

jective mind is unconscious that

dreams are caused by the strange ac-

tivities of our subconscious mind, if

there is such a thing.

"The metaphysician explains the

nature of dreams by the suspension of

vision during sleep. The unwill-

ing people believe that in dream the

soul of the dreamer goes out and

visits his friends, living or dead, and

old haunts or unfamiliar scenes of

life. They attribute all important

dreams to divine origin.

"It is agreed that dreams are much

affected by the condition of the body

and because the dream plays an im-

portant part in Bible history they

seek to impart sacred significance

to their dreams. There is no doubt

that dreams do sometimes coincide

with external matters, and that per-

sons have occasionally found lost ar-

ticles in dreams and solved vexed

problems; but so infrequently is the

case that it is a common saying

that 'dreams always go by con-

traries.'

"There is a well authenticated story

which belongs to the pioneer days of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

our beloved State. It is the story of

COGGINS, BUENMILLER TO BE TRADED FOR PROUGH

ONE of the biggest deals of the season is being secretly considered, which may give the Los Angeles Club, Bill Prough, the big right-hand of the Oaks, in exchange Lynn Scoggins and Al Buenmiller. While there has been no public announcement to this effect, it is based on what appears to be a reliable authority that the clubs have been negotiating.

The one thing, it is said, that stands in the way of the deal is that Chicago has an option of Scoggins. In case this can be arranged satisfactorily to Comiskey it is probable that the trade will be made. Los Angeles wants another right-hander with Oakland needs another outfielder and must have a high class shortstop to round out the infield. That is Buenmiller's regular position, and it is believed he would be a big help to the Oakland club.

Big Clings Done.

LITTLE MOTORBOATS SLIP ONE OVER IN RACES.

[SPECIAL CORRESPONDENCE]

LONG BEACH, Aug. 15.—The Titanic, a little motorboat about the size of a medium thumb-nail, the Chamber of Commerce Rec-up in the open handicap free-all of this city's races today. The Nobel came in second and Tona. These two boats were mere a also.

With big speed demons as the Isaac, and the Tagus were the last ten. The handicap is largely possible for the victory of the drafts. The committee was altogether too generous with them, is never considered that they had slow. But the large boats were last ones of it. Then also those driving the latter got careless. They sortayed around, watching each other paying no attention to the small boats in this race finished

as follows: Titanic, Campbell, Tona, Gray Fox, Junipero, Scaup, Lillian, Isabella W. and Tagus.

The Tagus again won the Nordiner trophy in the twelve-mile race. The Daisy was second.

The Isabella W. won the race for the cruizers of the first class and the vice-commander's cup. The other cruizers finished as follows: Edna, Tebris, and Lillian B. The race was over a 12-mile course.

The Scaup won the race for the cruizers of the second class and the commander's cup. The other boats finished as follows: Junipero and Gray Fox. These were the only crafts entered.

The races were well conducted and spectacular from the shore. There is no prettier sight than a speed boat, cutting its way knife-like through the water, tossing the spray fountain high. The Los Angeles Motorboat Club is to be congratulated on its results.

Laying Plans.

REDLANDS FOOTBALL MEN TO HIKE IN MOUNTAINS.

[SPECIAL CORRESPONDENCE]

REDLANDS, Aug. 15.—Coach A. Cunningham, of the University of Redlands, has about completed arrangements for getting his all squad in the best of condition for fall practice. Coach Cunningham plans to take the squad for a through the San Bernardino mountains, the week before the university opens, and it is his belief that he gets back with the men they will be in condition.

With the schedule of games starting after school opens it is absolutely necessary that the men get in condition on the jump," said the coach. "To do this I know no better method than a long hike. The hike through the mountains will give the boys wind, harden up their muscles and at the same time make them elastic for the hard grind of training."

Coach Cunningham believes that the hike will guard against that bane of football coach's life "a stale lunch from overtraining." It is hard to get the men trained up to a razor edge without having them go stale and the coach thinks a change of training diet will do the work. The squad will probably start for the hike about September 15.

To be traded.

The three Coast leaguers who are to figure in a trade in the near future if everything goes right. In the center is Clayton Kershaw, the Oakland heater for whom Pop Dillon wants trade Scrogins (above) and Beaulier (below.)

MOTORCYCLE RUN IS BIG SUCCESS

OVER A THOUSAND MACHINES TURN OUT FOR THE EVENT

The seventh annual run of the Los Angeles Motorcycle Club was the Sunday event in wheeling circles. Santa Monica Bay was the objective point and the pleasure pier at the foot of Pier avenue was the general rendezvous. The start from the city was made in such time that the main procession began to arrive at the beach about 10 o'clock, where the guests were welcomed by the municipal band of Santa Monica, which served as escort onto the broad walk from Rose avenue to the pier. Motion pictures were shown of the wheelmen en route, and upon arrival at the capital of joyland panorama photography was taken. As main body of excursionists included about 1200 wheels, but struggles continued to arrive throughout the day and the final estimate was that 2400 wheels had participated in the run. Of this number fully one-third were included in the tandem and triple car class. There was no speaking and no programme of events had been prepared; the wheelmen spent the day in the surf, at the dance hall, or enjoying the numerous other diversions at the beach. Among those taking part in the run were A. Long, president; Ed Peterson, secretary; C. Michel, Paul Derkum and Lester Mills of the Outing Committee and F. A. Martin, A. J. Menendez and E. A. Stanton, members of the board of directors of the organization. No accidents marred the pleasure of the run, but there was unusual incident. As the parade came into Venice, the wheels in wheel of the old horses and a pile of colts. The horses were right in the vortex of pouring machines and swept, frightened along in the procession. Three police motorcycles on all sides of them as well in front and behind, the horses were backed far more than a mile, they formed a part of the parade through the streets and along the pier walked out to the pier, where they were rounded up by the police after wheelmen had dismounted.

"RUBE" CRAM IS GIVEN RELEASE

BOSTON NATIONAL PITCHER GETS A SEVERE NICK

(BY A. P. NIGHT WIRE.)

BOSTON (Mass.), Aug. 13.—"Rube" Cram, former crack pitcher of the Brown University team, has been unconditionally released by the Boston National. It was announced tonight.

ROY CORHAN IS SUSPENDED

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Aug. 13.—Roy Corhan, the San Francisco shortstop, who was sent from the field yesterday for striking Jack Killiany, the Salt Lake pitcher, was today suspended indefinitely by Al Baum, president of the Pacific Coast Baseball League. Bill Leard will take Corhan's place. Corhan struck Killiany after an argument, which followed Killiany's hitting Corhan with a pitched ball.

LETTER OF A JAPANESE DRIVER.

THE FOLLOWING letter was running. Through the sand storm at written by a Japanese who de- the desert and through the much oil

livered a Mack truck to one of his countrymen at Brawley recently. It was addressed to J. A. Stoner, manager of the Mack Motor Truck Company, who says if there is anybody else who has made the trip, he will appreciate the experience of Kaw-

got to the fullest extent.
Brawley, Cal.
Mr. J. A. Stoner,
Care Mack Motor Truck Co.,
Los Angeles, Cal.
Dear Sir:—As you may know
through my bookkeeper, I
received your letter of 11:30 a. m.,
Sunday, and soon I came to Whittier
road it was so misty that, after one
hour drive, my eyes got tired and

Have stopped near Fullerton and rested for about one hour. Then under the early day light I drove through the hills and down to the beach and then when I came to near Del Mar my eyes got tired again so I slept on the ground there for about an hour. Then I started out at 1:30 p. m. and drove through instead of stopping there. When I came to Campo about ninety miles from Brawley I had a flat tire and had to stop running. My trouble began then. The steering is hard, the brake don't hold good, the headlight is not strong and the engine is noisy. I can't do what I could, I came to the bottom of the grades. Then I thought I will quit this trip.

Money I took the truck to a garage and had differential and transmission oil changed. The two men who were with me, the two who sold the curtains mentioned. The bearing which seemed somewhat too tight when I started is all right now and the oil is changed. The differential and the whole truck is in a-t condition. The engine is a wonder. Mr. Takahashi is very much pleased with it. He said that he had no chance of buying the same. Sorry my delay in writing you but I am occupied every minute in interest work. I will be home in the morning. Mr. Takahashi sent you check, notes and contract.

"I got to know the engine so well that I could let it go to sleep, so
 we have started again. Driving through the strong sand storm the side cur-
 tains came loose but the engine kept
 (Express me my hurriedly written letter.)

Repeat Orders.

**MANY TRUCKS OF SAME
 MAKE IN CITY SERVICE.**

ANOTHER repeat order, the nineteenth since the city of Los Angeles bought its first Autocar for the water department, came to M. E. Bulkeley, Coast distributor for Autocar trucks, last week. The nineteenth Autocar to be purchased for use in the water department is equipped for quick repair work of small and medium size, and will be used as a trouble wagon.

When experiments began with Autocar trucks more than three years ago, it was found that the truck could stand the punishment of four hours' hard work, and that the engine could be put to work, a careful check has been kept on the savings.

It was found that a much less than that of four trucks, and right there a big saving has been made. But one of the big savings came from the fact that the engine spent in riding from one job to another has been reduced 75 per cent, and the efficiency of the engine has been increased 50 per cent. Under the truck system a force of men very little larger than that of four years ago is doing nearly twice the work.

The city of Los Angeles also owns two Autocar trucks for police department work, making a total of twenty-nine in the ranks of these two departments.

"FLIPFANT AMERICANS."

German Organ Offers a New Classification for Those Who Died on the Torpedoed Lusitania.

[New York World:] With sig-

signs from the higher Teutonic viewpoint Belgians are "beasts" deserving no better fate. The fifty babies dead with the rest, some of them American, were, of course, flipfant.

The trouble is—statesmen must face

officers as rare as its humanity, the semi-official Cologne Gazette speaks of the "flippant Americans who were drowned on the Lusitania."

Doubtless they deserve the word. Americans who would have saved their babies to their breasts, as they looked vainly out over the sea for help, were flippant. American men who collected children to pet in the boats, saved their life belts to women, and met death with heads erect and steady eyes were flippant. Americans like these were the "flippant Americans" whose fine talents to save Belgians from starvation, were doubly flippant.

the fact—we Americans are like that! we are incurably flippant. Only a few of us really care indifferent who we read on the bulletin boards that 1200 helpless noncombatants had gone down with the Lusitania. Most of us must take us as we are. It must even bear with our infirmities.

LETTERS TO "THE TIMES."

California Suggestions.
LOS ANGELES, Aug. 14.—[To the Editor of the Times:] Referring to the C. C. Haskell's recent letter "Time to take a Hand," why not boost Hon. Frank Jordan for Governor? Begin with the word "right" at the top of the page and keep it right at the bottom. The people get it soaked into their minds. Then he won't need to rush all over the state, ruining his health in the frantic race to show off and ask people to vote for him. It is a disgraceful practice and ought to be ridiculed to death. The main cause of excessive taxes in California is the appointive power of the Governor, whose numerous "high-priced" commissions exhausted all sources of revenue. Thousands of men of \$1000 per year ability—are receiving \$4000 per year, which no county ought to maintain. It staggers the taxpayers beyond the word "insanity." What we need is a "County Legislative League," one or two members from each county, to sit with all State legislative work and definitely rebel against plunder, place, power and class legislation, and give us less law making.

Stand Up!
LOS ANGELES, Aug. 14.—[To the Editor of the Times:] The other day I went to see "The Gleaner." "The Star Spangled Banner" was played during the presentation, and only two persons in the large audience stood while it was being played. What does it mean?

Do not the American people know that it is the American anthem? Or are they too heedless and indifferent to show their respect and reverence? Stir up, I beseech you, through your widely read paper, the hearts and minds of these thoughtless people to a sense of their individual responsibility and loyalty, that they may always feel that it is a blessed privilege and honor to stand for and by their nation, their flag and their song.

MRS. B. J. WILLIS.

FEARS X-RAY.
Declaring he was being persecuted by several persons who wished to take X-ray pictures of his body, Fred Baumann, living at the Russ House, First and Los Angeles streets, appealed to the police early last night for protection. Baumann stated to Dr. Miller of the Receiving Hospital, where he was taken by the police for examination, that he was not sure just who was persecuting him but that a number of persons were after him. He was sent to the County Hospital and will be taken before the Lunacy Commission.

HOST OF "FRAT" MEN DUE SOON.

LEADING ATTORNEYS FROM FAR AND WIDE ARE COMING.

Los Angeles Alumni and Active Chapter will Entertain Delegates to National Convention of Greek Letter Society to be Held Late this Month at San Francisco.

Los Angeles will play hostess to a notable gathering of legal lights during the present month when leading attorneys will journey from all corners of the United States and Canada to attend the nineteenth convention of the Delta Chi Fraternity, to be held in San Francisco during the week beginning the 25th inst. The gathering will mark the eve of the twenty-fifth anniversary of the founding of this Greek letter fraternity.

The society was founded at Cornell University, October 13, 1890. It now includes active chapters at twenty-three universities as follows: New York, Minnesota, Michigan, Dickinson, Chicago-Kent, Buffalo, Osgood Hall, Toronto, Syracuse, Union, Ohio State, Chicago, Georgetown, Pennsylvania, Virginia, Stanford, Texas, Washington, Nebraska, Southern California, California, Iowa and Kentucky.

The fraternity also has nineteen alumni organizations in Chicago, New York, Buffalo, Washington, Columbus, San Francisco, Los Angeles, San Diego, St. Louis, Omaha, Seattle, Minneapolis, St. Paul, Houston, Syracuse, Vancouver, Portland, Birmingham and Philadelphia.

The majority of the delegates to the convention will meet in Chicago and travel to the Coast by special train. The first stop is to be Los Angeles, where the visitors will be entertained by the alumni chapter and the active chapter of the University of Southern California, college of law. The entertainment will include trips about this vicinity and a visit to the San Diego exposition. During their stay of several days in Los Angeles the delegates will be at the Alexandria, the University Club and the local fraternal house, No. 555 South Bunker Hill avenue.

The committee in charge of entertainment of the visitors is composed of John S. Mitchell (chairman), Judge Reeve, Judge White, George W. Dryer, Byron C. Hanna, Milton E. Cornelius and Charles H. Trible.

The Reception Committee to welcome them includes Pierson W. Banning (chairman), Deputy County Counsel Murphy, Assemblyman Chamberlain, George B. Bush, William C. Shelton, Alfred E. Dennis and George L. Keefe.

The present national officers of the fraternity are Henry V. McGurran, Chicago, "AA"; William W. Bide, Washington, D. C., "CC"; John B. Harshman, Dayton, O., "DD"; Frank A. Paul, Seattle, "EE"; George E. Bush, Riverside, traveling general counsel, and Arthur D. Cloud, Chicago, "FF", fraternity editor.

Among the well-known local members of the fraternity are: Judges Reeve and White, Assistant County Counsel Murphy, Chief Deputy District Attorney Westover, Assemblyman Chamberlain, Pierson W. Banning, recently in charge of the social survey of the Municipal League; Byron C. Hanna, former chief deputy District Attorney; Ray E. Nimmo, former City Prosecutor; Deputy City Attorney Hilmer; Milton E. Cornelius, John S. Mitchell, George W. Dryer, N. Perry Moerdyke, Irvin C. Louis, George B. Bush, William P. Kelley, former Deputy City Prosecutor, Andrew H. Rose, John J. Hill, Jr., former secretary to Chief of Police and deputy City Prosecutor; Samuel H. Pardue, J. T. Wambold, Fletcher Bowron,

Go Over Tragedy Scene.

(Continued from First Page.)

Westmoreland, when there was water, food and shelter to be had at Kaurich's ranch.

"Mr. Kaurich told me he had not realized the dire necessity of getting help to the stranded men until he found them, an hour after Mr. Welch died. I do not blame him at all.

"Mr. Clarke took the train for Los Angeles immediately after his arrival in Westmoreland. I really don't know why it all happened this way. It seems as though there might have been some way in which Mr. Clarke could have stayed at Kaurich's ranch until my brother-in-law and Mr. Roche were brought in to safety.

However, we will do nothing more about it unless Mrs. Welch demands it. I don't know what we could do."

Coroner Petersen left El Centro last night for Los Angeles. He has been the latter dying fast.

GIRLS A-FLUTTER; MIDDIES ARE DUE.

ALL IS READY FOR WELCOMING BUDDING OFFICERS AND ENLISTED MEN.

"The middies are coming, hurry, hurry!"

Every girl in town was excited yesterday. Between the dressmaker and the telephone, the day passed all too quickly for the fair citizens of Los Angeles. But reports received late last night indicated that everything is ready for the big doings today.

All preparations have been completed and everything is in readiness for the entertainment today of the enlisted men and the entertainment this evening of the \$55 midshipmen.

Long strings of electric cars will form early this morning at Los Angeles Harbor, and from 10 o'clock on there will be a steady stream of blue-jackets and midshipmen from the water front.

And the stream will be just as large going back at 12 o'clock tonight.

WALKS ALL NIGHT TO JOIN HUSBAND.

AGED, LONELY WIFE LOSES HER WAY—ANGEL APPEARS IN MOTOR CAR.

Mrs. Minnie Gouget, 74 years old, became so lonely Saturday for her husband, who is in the County Hospital, that she set out alone from her home on First street, Inglewood, to visit him.

She started early in the afternoon and she walked until sundown, asking many persons how far the County Hospital was. They pointed off to the west.

Through the night she continued her lonely tramp. The streets were deserted, and she was asking how near was the hospital, where her husband lay. She kept trudging along.

So many hours passed and she went so slowly, having had neither food nor rest since she started, that she could only keep tottling along until daylight should come.

She was leaning against a post when Charles Elyton, motion picture man, passed in his motor car. He saw the forlorn and weary figure, stopped his machine and offered to carry her.

The old woman was so weak and dazed she wept. Mr. Elyton addressed her. He lifted her into his machine and took her to the Receiving Hospital. She was given food and put to bed.

Later in the day, Mr. Elyton returned and took her in his car to the County Hospital, where he made her comfortable and observed for the invalid husband by providing her with a brimming basket of dainties. When she left him, the brave old woman kissed him.

Westmoreland, when there was water, food and shelter to be had at Kaurich's ranch.

"Mr. Kaurich told me he had not realized the dire necessity of getting help to the stranded men until he found them, an hour after Mr. Welch died. I do not blame him at all.

"Mr. Clarke took the train for Los Angeles immediately after his arrival in Westmoreland. I really don't know why it all happened this way. It seems as though there might have been some way in which Mr. Clarke could have stayed at Kaurich's ranch until my brother-in-law and Mr. Roche were brought in to safety.

However, we will do nothing more about it unless Mrs. Welch demands it. I don't know what we could do."

Coroner Petersen left El Centro last night for Los Angeles. He has been the latter dying fast.

GIRLS A-FLUTTER; MIDDIES ARE DUE.

ALL IS READY FOR WELCOMING BUDDING OFFICERS AND ENLISTED MEN.

"The middies are coming, hurry, hurry!"

Every girl in town was excited yesterday. Between the dressmaker and the telephone, the day passed all too quickly for the fair citizens of Los Angeles. But reports received late last night indicated that everything is ready for the big doings today.

All preparations have been completed and everything is in readiness for the entertainment today of the enlisted men and the entertainment this evening of the \$55 midshipmen.

Long strings of electric cars will form early this morning at Los Angeles Harbor, and from 10 o'clock on there will be a steady stream of blue-jackets and midshipmen from the water front.

And the stream will be just as large going back at 12 o'clock tonight.

WALKS ALL NIGHT TO JOIN HUSBAND.

SENDS APPEAL TO GOVERNOR.

Sheriff of Imperial Valley Won't be Stung.

Missouri Official Demands Reward for Arrest.

Threat to Release Prisoner Causes Action.

BY DIRECT WIRE—EXCLUSIVE DISPATCH.
EL CENTRO, Aug. 15.—Implying that the Chief of Police of Webb City, Mo., seeks to extort \$100 reward under threat of releasing a fugitive from Imperial Valley caught after a year's nation-wide search, Sheriff Applestall tonight telegraphed to the Governor of Missouri appealing to him to exercise every force at his command to block the police official from liberating Edgar Byrd, 29 years old.

Byrd is wanted here for what the Sheriff's men say was the most cold-blooded assault in the history of the valley. Byrd was the professional "bad man" of Holtville. A year ago he advanced upon Deputy City Marshal W. D. Acree of Holtville in the main street of that town and standing fifteen paces away emptied the five chambers of his revolver at the officer, reloading and fired twice again. Each of the seven bullets took effect, yet Acree recovered.

Poses accused the country-side for Byrd for days and citizens of Holtville offered a reward of \$450 for his conviction which reward has since been withdrawn. The reward of the Supervisors of \$250 for "first complete information leading up to" Byrd's arrest is still in effect. This week Sheriff Applestall received information of Byrd's whereabouts. He telegraphed the Sheriff of the county of Missouri and turned over to the Chief of Police for that official, without signing his name, sent the following telegram:

"Do you want Edgar Byrd and is there any reward? If so wire at once and we will get same."
Unable, because of the Sabbath, to consult the minutes of the board to learn if the reward had expired by limitation, Sheriff Applestall yet telegraphed that he would pay \$25 for arrest and detention, adding that he held a felony warrant. To this the Chief of Police of Webb City responded later today:

"Have one Edgar Byrd in jail here. We understand reward and will turn him over for \$100. If we do not hear from you immediately we will release. He will return without papers."
Sheriff Applestall's answer was to immediately wire the Governor of Missouri fully explaining the details and asking that he insure detention of Byrd until he can present formal request for extradition.

"There is a peculiar answer to the officer's request," the Sheriff said tonight. "An officer's duty is plain in such cases and is that he shall arrest and hold any fugitive and not concern himself with rewards. Should this officer, in the circumstances, liberate this prisoner it would make him an accessory after the fact and subject to criminal prosecution."

Spent a delightful week-end at Arrowhead Springs.—[Advertisement.]

MANY VETERANS LEAVE.
Received Increased Pensions and are Willing to Shift for Themselves. Recent Deaths at the Home.

SOLDIERS' HOME. Aug. 15.—On their own request sixty-five veterans have been discharged from the Home. With increased pensions, they are of the opinion that they will be able to maintain themselves outside the Home.

The more important of recent changes in office here is that of Keen Kenney, appointed guard-sergeant in charge of the "fatigue squad," vice Harrison, resigning today. She will be succeeded in that place by Arthur Feldman, a young civilian from Los Angeles.

Recent deaths at the Home are: Henry Armstrong, formerly of Co. F, Twenty-second Michigan Infantry, a native of New York, died August 11, aged 76.

William Durham, formerly lieutenant and quartermaster of the Forty-third Indiana Infantry, a native of Indiana, admitted from Long Beach in 1915, died August 12, aged 85.

George L. Culp, formerly of Co. K, Eighth New York Heavy Artillery, a native of New York, died August 12, aged 78.

SHOWS HER LEG; GETS VERDICT.
[LOCAL CORRESPONDENCE.]
SANTA PAULA, Aug. 15.—A verdict of \$500 damages was awarded Elsie Maynard in her suit against Dr. Benjamin E. Merrill in the Superior Court. Miss Maynard sued for \$21,525 as damages for alleged malpractice, the complaint being that, while she was undergoing an operation for tonsillitis, a hot water bottle placed against her right leg inflicted painful burns and caused permanent injury.

The court proceedings were continued by Miss Maynard's exhibiting, at the instance of Dr. Merrill, a photograph of the injured leg to the judge and jury, also by the complaint of Attorney Farrand for the defense that Mrs. Rolf, a nurse, and one of Miss Maynard's witnesses was communicating with and signaling to the witnesses on the stand.

MAN AND DOG SLEEP AT POST.

UPLAND, Aug. 15.—A Los Angeles automobilist, while passing through Upland late at night, experienced some difficulty with his car and, driving the machine to the back entrance of a local garage, went to sleep in the tonneau, having there with him a watch dog. While both the dog and the man slept, some sneak thief stole two new tires, which had been strapped to the side of the machine. It is said the watch dog is now offered for sale.

USE THE SPUR ON SANTA FE.

PASADENA DEMANDS FLAGMEN AT BAD CROSSINGS.

Railroad has had Several Months to Comply with City's Request. Commission Threatens to Pass Compulsory Ordinance—Funeral of Banker's Widow Tomorrow.

[LOCAL CORRESPONDENCE.]
PASADENA, Aug. 15.—Several months ago the City Commission requested the Santa Fe Company to station flagmen at the dangerous crossings in the east part of the city. As this request has not been complied with, Chairman Hamilton states that it will be necessary for the city to pass an ordinance compelling the transportation company to comply.

Following two fatal accidents some time ago the commissioners decided that guards should be placed at six of the most dangerous crossings to supplement the automatic wig-wag signals in safe-guarding pedestrians and motorists.

It took the company official several months to reply to Commissioner Hamilton's communication and, even then, it was referred to some other official, Mr. Hamilton has about come to the conclusion that the matter has been delayed long enough.

ASKS RETURN OF MONEY.
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]
TULARE, Aug. 15.—Disatisfied stockholders of the Tulare County Power Company have called a meeting here tomorrow, the announced purpose of which will be to compel the president and stockholders of the corporation to put back in the treasury \$117,488 recently sent out to the stockholders, representing the first installment to be paid for the purchase of the company's properties by the Mr. Whitney Power and Electric Company. Those who have called the meeting declare there have been irregularities in financing the company and that the disbursement is not being carried out according to law.

BEAN GROWERS ORGANIZE.
[LOCAL CORRESPONDENCE.]
GARDEN GROVE, Aug. 14.—With the election of J. A. Knapp as president, Edward Dozier as vice-president and Edward Chaffee as secretary, the organization of the Bean Growers' Association of Garden Grove has been effected. Fred Andres and Will Stuck are also on the board of directors. Plans and specifications for the new warehouse, which will probably be erected adjoining the Walnut Growers' house, will be received soon. Estimate will be received for installing the bean-cleaner. The campaign for securing new members will be continued.

LIMA BEANS SHORT.
[LOCAL CORRESPONDENCE.]
OXNARD, Aug. 15.—That the lima bean crop this year will be much smaller than that of last year is the belief of many ranchers. The acreage planted is as large, or larger than previous years, but the indications are for a lighter crop. The reason for this is the fact that most of the hold-over crop has been sold, that remaining being in the hands of ranchers who are financially strong and independent, is forcing the price up. Three weeks ago beans were selling at \$4.45, this week the quotation is \$4.15.

Properties throughout the county are, to an alarming extent, showing the effects of the rust fungus this summer. All sorts of trees, including deciduous and citrus fruits and ornamental trees, are affected, and Horticultural Commissioner Brock is carrying on numerous investigations and experiments looking to the elimination of the pest.

The rose beetle, or flower rose bug, is a new pest that has just been discovered as a menace to the bean crop in the Santa Paula and other sections of the county. While new in the bean fields, as an enemy to the citrus district it is familiar. The beetle climbs into the bean plants and devours the leaves. While it has been found to work in a number of fields, no appreciable harm has been done thus far.

SOUFAN GRASS.
[LOCAL CORRESPONDENCE.]
ONTARIO, Aug. 15.—That Soudan grass, which is hailed by prominent agriculturists as the coming stock feed of America, can be grown successfully in the Ontario section, has just been strikingly demonstrated by John H. Baker, a prominent dry rancher of this city.

Part of the result of Mr. Baker's experiments is his exhibition at the Ontario Chamber of Commerce. Lacking just two hours of being fifty-three days from the time he sowed the seed, while new in the bean fields, as an enemy to the citrus district it is familiar. The beetle climbs into the bean plants and devours the leaves. While it has been found to work in a number of fields, no appreciable harm has been done thus far.

PINNED UNDER CAR.
[LOCAL CORRESPONDENCE.]
WHITTIER, Aug. 15.—Walt Thomas, about 25, was perhaps fatally injured near Montebello this afternoon when he collided with another and he was pinned under the machine. His hip and the lower part of his body are terribly crushed and he is in a critical condition. Several of the cattle may be shipped later.

Armed, aged 17, "Jungle girl" on the Pacific coast circuit, were in Newman's company when the machine reached the garage, according to the police report.

VENICE, Aug. 15.—An automobile reported at an early hour this morning as having been stolen from W. G. Clark of the Van Nuys Hotel, Los Angeles, was "recovered" shortly after at a beach garage, where it is said to have been left for repairs by Ralph Neumann, who was taken into custody. Eight bullet holes in one of the tires of the machine give color to the police theory that the stolen machine was given a hard chase by speed cops. Frankie Lovell, aged 19, and Freda

SOUTHERN CROP REPORTS.

LOCAL CORRESPONDENCE.]

VAN NUYS, Aug. 14.—The melon growers of the valley are highly elated over the success of the co-operative marketing system recently inaugurated by the Van Nuys-Owensmouth-Marian Growers' and Cannermen Association. By the method now in vogue the product is being handled by the growers themselves, a committee of three having charge of the picking and hauling, while another committee of four superintends the marketing operations in the city. Some thirty stalls have been leased in the Sixth-street and Ninth-street public markets, affording ample facilities for handling the melons, which are now going forward at the rate of thirty tons per day. The selling end of the proposition is under the management of Ben H. Arkell, known among dealers as the "Imperial Melon King."

His delivery calls for an average fifty tons of watermelons and cantaloupes, for handling, which Mr. Arkell is to receive \$1.50 per ton. In return he pays a liberal salary to each member of the association assisting him. The picking and hauling of the melons is done by the growers so far justify the expectation of handsome returns for both watermelons and cantaloupes for the season.

LIMA BEANS SHORT.
[LOCAL CORRESPONDENCE.]
OXNARD, Aug. 15.—That the lima bean crop this year will be much smaller than that of last year is the belief of many ranchers. The acreage planted is as large, or larger than previous years, but the indications are for a lighter crop. The reason for this is the fact that most of the hold-over crop has been sold, that remaining being in the hands of ranchers who are financially strong and independent, is forcing the price up. Three weeks ago beans were selling at \$4.45, this week the quotation is \$4.15.

Properties throughout the county are, to an alarming extent, showing the effects of the rust fungus this summer. All sorts of trees, including deciduous and citrus fruits and ornamental trees, are affected, and Horticultural Commissioner Brock is carrying on numerous investigations and experiments looking to the elimination of the pest.

The rose beetle, or flower rose bug, is a new pest that has just been discovered as a menace to the bean crop in the Santa Paula and other sections of the county. While new in the bean fields, as an enemy to the citrus district it is familiar. The beetle climbs into the bean plants and devours the leaves. While it has been found to work in a number of fields, no appreciable harm has been done thus far.

SOUFAN GRASS.
[LOCAL CORRESPONDENCE.]
ONTARIO, Aug. 15.—That Soudan grass, which is hailed by prominent agriculturists as the coming stock feed of America, can be grown successfully in the Ontario section, has just been strikingly demonstrated by John H. Baker, a prominent dry rancher of this city.

Part of the result of Mr. Baker's experiments is his exhibition at the Ontario Chamber of Commerce. Lacking just two hours of being fifty-three days from the time he sowed the seed, while new in the bean fields, as an enemy to the citrus district it is familiar. The beetle climbs into the bean plants and devours the leaves. While it has been found to work in a number of fields, no appreciable harm has been done thus far.

PINNED UNDER CAR.
[LOCAL CORRESPONDENCE.]
WHITTIER, Aug. 15.—Walt Thomas, about 25, was perhaps fatally injured near Montebello this afternoon when he collided with another and he was pinned under the machine. His hip and the lower part of his body are terribly crushed and he is in a critical condition. Several of the cattle may be shipped later.

Armed, aged 17, "Jungle girl" on the Pacific coast circuit, were in Newman's company when the machine reached the garage, according to the police report.

MINERAL WATERS AT ARROWHEAD.
Springs highly radio-active.—[Advertisement.]

7% APPLY THIS 7% SAFE RULE IN MAKING Your Investments
Ask Yourself: Would the actual and unquestionable value of my security show me a clear profit of from 50 to 100 per cent. in money if it came into my possession by default in payment? Is the tangible security back of my investment of such nature that I can determine its absolute value at the time I make my purchase? You can apply this safe rule in buying our carefully selected Tax Exempt California Street Improvement Bonds.

Each bond is a separate lien on a specific lot or parcel of land which has been benefited by the improvement for which the bond was issued.

You can compare the value of the land with the amount of the bond against it and convince yourself whether or not the security is sufficient to make you a fine profit should it come into your possession by default in payment.

Our standards are careful selection and good service. We are dealers, not brokers, and handle collections without charge.
